

Los Angeles County Fire Department

TUESDAY, JUNE 4, 2013 10:00AM – 12:00PM SIDEWALK CPR TRAINING

Anyone can learn CPR and everyone should!

Can you spare 10 minutes to learn how to save someone's life? Since 88% of cardiac arrests occur at home, the life you save with CPR is likely to be someone you know and love. Bystander CPR (hands only) provided immediately after sudden cardiac arrest can up to triple a victim's chance of survival, yet only 32% of cardiac arrest victims get CPR from a bystander. Many are concerned they might do something wrong, but the only way to make things worse is to do nothing at all.

Nearly 383,000
out-of-hospital
sudden cardiac
arrests occur
annually

88 percent of
cardiac arrests
occur at home

Many victims
appear healthy
with no known
heart disease or
other risk factors
